

Space Out

Get your Girl Scout year off to a great start with this fun event. Their feet may remain on the ground, but girls' imaginations will soar during this day of space exploration.

Do you wonder what lies beyond our universe? Do you look up at the stars and dream about what aliens might look like? What would it be like to be an astronaut? How far away are stars? Attend Space Out and explore questions like these as you learn about space in a new, fun, totally hands-on way!

Individual girls with an adult may attend without their troops. Event patches are included.

Who: Brownies and Juniors; *Safety-Wise* ratio of adults
